

JUAN CRUZ AGÜERO LUNA

JUNIOR SOFTWARE DEVELOPER

PROFESSIONAL DATA

I am a passionate and committed software developer always looking to improve my skills and keep updated on the latest trends and advances in the field of software development. My goal is to contribute to the success of the projects in which I participate, providing effective technical solutions and ensuring customer satisfaction.

TECHNOLOGY STACK

- HTML
- JAVASCRIPT
- NODE JS
- GIT
- CSS3
- TYPESCRIPT
- EXPRESS
- JWT
- BOOTSTRAP
- ANGULAR
- MONGO DB

SOFT SKILLS

- Effective communication.
- Teamwork.
- Critical thinking.
- Adaptability.
- Time management and organization.
- Curiosity and continuous learning.
- Resilience and stress management.
- Problem solving.

LANGUAGES

- Native Spanish
- English A2

EXPERIENCE

Frontend Developer Jr

INCLUIT | April 2022 - Currently

- I participated as a frontend developer in a multidisciplinary team in the development of a project based on technologies such as Typescript, Vue.js, C# and .NET.
- I was part of the development of reusable components, maintaining a modular and scalable approach in the code, which allowed a more efficient development and greater flexibility in future iterations of the project.
- I made connections to API services to get and send data to and from the backend.
- I worked closely with other team members to achieve a seamless integration between the different parts of the system.

Jr Fullstack Web Developer

Kondur Skateboards | March 2022 - Currently

- I participated in the development of a project focused on the creation of a complete ecommerce system as a full stack developer. I used a technology stack that included Angular, Node.js, Express, MongoDB and tools like JWT.
- I actively participated in all stages of the project, from layout and frontend development to backend development and API implementation.
- As a frontend developer, I contributed to the design and implementation of the layout, using Angular to create an attractive and friendly user interface.
- In backend development, I used Node.js and Express to build a robust and scalable architecture. I implemented APIs for communication between the frontend and the MongoDB database.
- I implemented security measures such as authentication and authorization using JWT, ensuring data protection and security in the ecommerce system.
- I collaborated closely with other team members, including designers and developers, to ensure a smooth integration and collaborative workflow.

EDUCATION

San Martin High School

Senior Software Development Technician | March 2019 - December 2023

#YoProgramo - Argentina Programa 4.0

Web Fullstack Junior | June 2023

University Angular - Udemy

Angular Developer Jr | June 2023

University Javascript - Udemy

Javascript Developer Jr | JAbril 2022
